Objective

I'm a business analytics student skilled in database cleaning, data analysis, data visualization & SAP. I have gained practical experience working as a database administrator at Tata Consultancy Services. I'm looking to apply my analytical and engineering skills to contribute to your organization.

Technical Skills

Languages & Tools: Python, SQL, R, Excel, Tableau, Power BI, SAP, Alteryx & Eclipse.

Techniques: Regression, Forecasting, Data Cleaning, Data Visualization

Experience

Assistant System Engineer

Feb 2022 – Jul 2023

Tata Consultancy Services (TCS), Hyderabad, India.

- Supported the NXP Semiconductors project as an Oracle Database Administrator.
- Analyzed root causes of data transaction issues.
- Monitored and maintained multiple database platforms.
- Utilized Agile methodology to address and resolve issues.

Intern

Nov 2021 – Jan 2022

NxtWave's CCBP 4.0 Intensive Program.

- Built and developed responsive web pages using modern front-end technologies.
- Worked with relational databases for data analytics and web application development.
- Developed scalable web applications and conducted analytics using NoSQL databases.

Education

- | | |
|---|----------------------------|
| ▪ Master of Science in Business Analytics | 3.9/4.0 |
| <i>Webster University, St. Louis, United States</i> | <i>Aug 2023 - Present</i> |
| ▪ Bachelor of Technology in Civil Engineering | 7.0/10.0 |
| <i>Guru Nanak Institutions Technical Campus, Hyderabad, India</i> | <i>Jul 2018 – Oct 2021</i> |

Academic Projects

Forecasting Customer Traffic – Eastland Plaza Credit Union

Tools: Excel, Regression Analysis

- Built a multiple linear regression model to predict daily customer arrivals
- Recommended staffing adjustments based on forecasts
- Delivered insights through an Excel dashboard and stakeholder PowerPoint

Retirement Investment Analysis – Couples Dataset (194 Records)

Tools: Excel, Correlation Analysis, Regression

- Identified key drivers of investment behavior in tax-deferred plans
- Conducted exploratory data analysis, built regression models, and provided recommendations

Riding Mower Purchase Prediction

Tools: R, Logistic Regression

- Used logistic regression to classify prospective vs. non-prospective riding mower owners
- Interpreted coefficients to improve marketing outreach

Professional Development courses from LinkedIn

- Power BI & Tableau Essential Training
- Accounting Foundations (2019) & Financial Forecasting with Analytics
- Alteryx for Financial Services
- Business Analytics Basics from Simplilearn.

Declaration

I hereby declare that the above written particulars are true and correct to the best of my knowledge.

Ajay.
